DEF Grants

Grant Awarded in the Fourth Quarter of 2017

Chesterton High School -- SLYCE, \$2,400

The SLYCE program seeks to develop leadership skills in youth invested in the region. SLYCE is a 6 month leadership program for high school students in our seven-county region. Students come to understand regional issues and assets while they work collaboratively to recommend action for regional leaders to review and utilize. Students are presented with a series of sessions focused on building leadership skills. Students can expect to create a strong network for friends as they meet and interact with local leaders and key stakeholders. Schools and community groups are encouraged to nominate bright, thoughtful students with leadership ability.
